

TECHSTER

Tech students,
entrepreneurial routes

Project number: 2020-1-
PL01-KA203-082297

An Erasmus+ KA203 project that wants to tackle the limited competences on entrepreneurial behaviour and soft skills of technical students

01.10.2020 - 30.09.2022

The project is for:

- Higher Education teachers, managers and coordinators
- Higher Education students in technical education
- Stakeholders

The consortium

Coordinator

Aims

The **TECHSTER** project aims to enhance the entrepreneurial and soft skills of Higher Education teachers and students. A more entrepreneurial dimension to technical education will be developed and the local and European network of HE institutions will be strengthened. As a result, young people will become successful entrepreneurs not only at a national level, but also internationally.

OUR THIRD PARTNER MEETING IN POLAND

TECHSTER's third meeting was held in Łódź, Poland on the 16th and 17th of May 2022. The partners have focused on the development of the **TECHSTER Teacher Guide**, which aims to facilitate the implementation of the tools introduced in the Toolbox. The consortium has also discussed the **TECHSTER Online Community**, where all materials will be available, but also where teachers and students can exchange good practices! It was a very productive meeting, which has inspired us for the directions to take with the project deliverables.

ALPHA AND BETA TESTING

In order to develop results of high quality, the project partnership and specifically the universities within the partnership (University of Lodz, Coventry University and EGE University), have tested the Toolbox, Teacher Guide and Online Community. This was done through an Alpha test (reviewing the project results by 30 higher education representatives, with participation of at least 150 students), which provided useful feedback to improve the results mentioned above.

Following the Alpha test, there was a Beta test, which took place in Łódź, Poland and where the teachers from United Kingdom, Turkey and Poland have provided the final evaluation on the improved results. This has helped us very much to finalise the Toolbox, Guide and Online Community.

The TECHSTER partners are very grateful to all teachers that have participated in the testings!

OUR PROGRESS

*In less than a month we will finalise the **TECHSTER** project, which means that you will be able to use all of our deliverables in order for your students to obtain soft skills and entrepreneurial skills! Before that, we still have some activities that will ensure you will be able to use materials of high quality!*

- **TECHSTER Teacher Toolbox** will be available on our website www.tech-ster.eu in Dutch, Polish, Turkish, Greek and English.
- **TECHSTER Teacher Guide** is ready and will be available soon on our website in the same languages as the Teacher Toolbox.
- We are also moving full steam ahead in order to finalise the **TECHSTER Roadmap** for TECHSTER's learning approach to become part of the institutions' policy. You can expect the Roadmap soon in Dutch, Polish, Turkish, Greek and English on www.tech-ster.eu.
- We are also very excited to present our **TECHSTER Online Community** within a couple of weeks! At the moment, we are optimising the Online Community for the best user experience.
